

NEW YEAR, NEW MILESTONE. MAZZANTI AUTOMOBILI ENTERS THE CRYPTO-CURRENCIES WORLD.

(Pontedera, 22nd February 2021) The last twelve months have led companies to face complex challenges. Nevertheless, Mazzanti Automobili has managed to grow positively even in a year characterized by the pandemic, proving to be a cutting-edge car manufacturer. The company has successfully closed the year 2020 thanks to three different Crowdfunding campaigns launched on European platforms in Italy, the United Kingdom and Sweden.

In continuity with the previous achievements, 2021 begins with a new milestone. It is an honor to announce **Mazzanti Automobili is the first automotive company to enter the crypto-currencies world.**

Starting from February 25th it will be possible to buy the iconic Evantra models using crypto currencies, an Evantra 771 is today worth 49 Bitcoin and a Millecavalli worths 59.

From the same date and on the same platform, named “STOKR” (<https://stokr.io/stoke-post/meet-mazzanti>), it will be also possible to acquire “Mazzanti tokens” (MZZ). Payment can be done in Euros, Bitcoin, Ethereum and Litecoin, starting with a minimum investment of 50 euros.

The campaign will run for two months with the aim of raising funds for the construction of a special edition of the Evantra Millecavalli R (racing). The novelty is that, for the first time, Mazzanti Automobili will share with its community up to 50% of the revenues deriving from the sale of this model to a collector.

“I am proud to take a further step towards the growth of Mazzanti Automobili and to be able to directly involve many passionate admirers in the production of our hypercars. In the continuous search for innovation, we immediately recognized the potential of security tokens in achieving our goals of inclusion and expansion. It is an example of 21st Century innovation and Mazzanti Automobili is proud to be leading the way.” (Luca Mazzanti, Founder)

Notes to Editors

MAZZANTI AUTOMOBILI

Mazzanti Automobili is a manufacturer of luxury hypercars, custom-made and hand-crafted in Pisa, Italy. The founder Luca Mazzanti, always a car enthusiast, has channeled thirty years of passion and experience into making the company one of the most sought-after craft hyper car-makers in the world. The company offers three models, the Evantra, the Evantra 771 and the Evantra Millecavalli, each personalised and tailored to the individual requirements of enthusiasts from around the globe.

STOKR

STOKR is the EU's pioneering digital marketplace for alternative assets, where smart investors connect with and fund forward-thinking founders. STOKR liberates the access to high-profile investment opportunities from the inner circle of traditional venture capital. Through EU-compliant security token offerings (STOs), STOKR empowers professional and retail investors alike to directly engage with young and growing ventures in a simplified and risk-reduced environment, without the need for middlemen such as custodians or brokers. Operating out of Luxembourg, STOKR fosters a community of educated investors who participate in the future success of a diverse range of ventures through profit- or revenue-sharing rights.
